A Dominican Afro-Latina Raised in Dallas, Texas, Letta J's presence in the music marketplace is armed with a powerful & distinctive international sound. The daughter of two pastors, singing in church congregations of thousands of people under Bishop T.D.Jakes’ leadership was no challenge for the youngest member of the Grammy Award Winning Potter’s House Choir. With a catalog of over 100 records, her move to New York City ushered in numerous opportunities including her first record deal, licensed songs on HBO & Nickelodeon as well as reserved placements from several industry icons. Her ability to pen a hit, is why she has worked with producers like Timbaland, Mike City & Scott Storch, has opened in concert for artists like Atlantic Records’, Trey Songz, Lauryn Hill, Elle Varner & merits phone calls from Clive Davis himself!

She is the Founder & CEO of Coexist Gaming, a tech & subscription based company renowned for its community-centric approach to innovation for the gaming & creator communities based in NYC. She built Times Square’s first membership-based gaming & creator content lounge in NYC.
